## ANNEXURE-I TO THE DIRECTORS' REPORT

### MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Management of the Company is pleased to present Management Discussion and Analysis Report (to the extent applicable to the Company) covering overall performance and outlook of its activities.

#### MACRO ECONOMIC OVERVIEW

##### Indian Economy:

Considering that Indian GDP will continue to remain upwards of 6% and India having the world's largest population below 40 years (estimated at over 200 million) with significant purchasing power, business opportunities will touch new echelons. However, sustaining high growth is likely to be the overarching concern in 2013-14, although the risk of inflation will remain, mainly because of a weak rupee.

There are many important policy reforms in the pipeline in 2013-14, such as land acquisition reform, new manufacturing policy, FDI, among others. This is also the year when the government has set its targets to achieve its ambitious goal of food security and cash transfers to the poor, in lieu of the subsidies. However, these reforms will widen the fiscal deficit further. Policymakers' approach of pushing for growth with less focus on the productive dynamic has translated into increased signs of macro stability risks emerging in the form of higher inflation, fiscal deficit and current account deficit.

With agriculture and service sectors continuing to perform better, the GDP slowdown can be attributed entirely to the continuous weakening of the industrial growth. The service sector continues to be a star performer with a growth rate of over 9 per cent. Similarly, agriculture and allied sectors are also estimated to achieve growth rate of 2.5 per cent in 2012-13. The most pressing task for the government will be to get the investment cycle buoyant again. The global economic and financial crisis has had a dampening effect on cross border FDI flows and in order to maintain earlier levels of foreign investment and attract more, it is imperative to enhance India's competitiveness. Higher public investment appears unlikely given the tight fiscal situation due to the uncontrolled revenue spending which has led to uncontrollable inflation. Inflation worries may however lighten, with food inflation declining steadily.

Private investment activity has been slack due to numerous uncertainties facing corporate. The large

Indian companies are sitting on a pile of cash which they are refraining to use to build fresh capacity.

The obvious way would be to rebuild corporate confidence and that can be achieved only through the implementation of a well-studied actionable agenda. The few sectors that have a significant multiplier effect on the rest of the economy could be given special attention. These include construction of new roads, a reinvigorated national highway programme, construction of affordable housing for the masses; energy, etc. which will generate jobs as well as demand for cement, steel and engineering equipment among others. The fiscal deficit is also a concern area and it seems highly unlikely that there will be significant progress towards fiscal discipline right now.

The GDP growth has slowed down to 6.5 per cent on the back of weakening in industrial growth, although agriculture and services continued to perform well despite drought and floods in some parts of the country. Continuous rise in commodity and fuel prices have ensured that now inflation has spread into manufactured products on the back of growing demand.

#### ABOUT SIL INVESTMENTS LIMITED (SIL)

##### Financial Performance-Overview

SIL is a registered NBFC since 22<sup>nd</sup> May, 2009 in the category of Non-deposit Taking Systemically Important NBFC (ND-SI). Company's standalone performance is discussed in the Directors' Report. The mainstay of Company's operations continued to be Investments in various Companies, under which steady dividend income flows into the Company coupled with sustained appreciation in capital. During the year under review Company has earned income in the form of dividends, rent income and interest on ICD lending activity. The Company's core businesses remain as commercial finance and investments. The Company will extend the business further through identification of promising investment opportunities, through leveraging its resources. Company is also looking forward to expand its operations in the other fields permitted by the Reserve Bank of India, in conformity with its present status. Nearly 100 per cent of the operating profits were contributed by core businesses viz., commercial finance and investments.

### The Consolidated performance of the Company is as follows:

SIL's consolidated income from operations for the financial year ended March 31, 2013 stood at Rs. 3234 lakhs as against Rs 3231 lakhs in the previous year. Profit after tax, minority interest, was however, at Rs.871 lakhs, as against Rs.1059 lakhs for year ended March 31, 2012 which was due to higher taxation at Rs.228 lakhs as against Rs.162 lakhs.

### Resources and liquidity

As on March 31, 2013 the consolidated net worth of the Company stood at Rs.17631 lakhs as against Rs.16916 lakhs as on March, 31, 2012. As on March 31, 2013, the consolidated total assets were Rs. 29928 lakhs as against Rs. 32082 lakhs as on March, 31, 2012.

### Finance and Investments

The investment portfolio of the Company in quoted investments as on March 31, 2013 was Rs.8112.68 lakhs, at cost.

### RISKS AND CONCERNS

SIL is exposed to specific risks that are particular to its businesses and the environment within which it operates, which include market risk, interest rate volatility, execution risk and economic cycle.

- The Company has significant quoted investments which are exposed to fluctuations in stock prices. These investments represent a substantial portion of the Company's core capital and are vulnerable to fluctuations in the stock markets. Any decline in these quoted investments may severely impact its financial position and results of operations.
- Credit risk is a risk arising from default or failure on the part of borrowers in meeting their financial obligations towards repayment of loans and interest. This risk is comprehensively addressed by the Company both at the strategic level and at the client level.
- Liquidity Risk-Asset/Liability Management: The Company is exposed to liquidity risk principally as a result of lending to its customers for periods which may differ from those of its funding sources. Financial firms are now increasingly focused on asset-liability risk. Asset-liability risk is a leveraged form of

risk. The capital of most financial institutions is small relative to the firm's assets or liabilities, so small percentage changes in assets or liabilities can translate into large percentage changes in capital.

The problem was not that the value of assets might fall or that the value of liabilities might rise. It was that capital might be depleted by narrowing of the difference between assets and liabilities that the values of assets and liabilities might fail to move in tandem. The Company is alive to the dynamics of this problem and has in place a control structure for closely monitoring incipient signs of risk in this area and to unleash necessary corrective measures, if needed. SIL's treasury actively manages asset liability positions in accordance with the overall guidelines laid down by the Management in the Asset Liability Management (ALM) framework.

- The company can be adversely affected by volatility in interest rates in India, which could cause its margins to decline and profitability to shrink. Earnings from interest income is steadily becoming one of the important businesses of the Company. It is therefore exposed to interest rate risk, principally as a result of lending to its customers at interest rates, in amount, and for periods which may differ from those of its funding sources. The Company is hedged to some extent against this risk through the reset clause in its advances portfolio.
- While the Indian economy has shown sustained growth over the last several years, a slowdown could cause the business of the Company to suffer. SIL manages such risks by maintaining a conservative financial profile and following prudent business and risk management practices.
- The risk appetite is enunciated by the Board from time to time. Company has in place specially mandated Committees such as ALCO, Risk Management Committee, besides Nomination-cum-Remuneration and Audit Committees.

### INTERNAL CONTROL SYSTEMS

Company has adequate internal control system commensurate with its size and nature of business.

Conforming to the requirements of the regulatory authorities such as the RBI and the SEBI and consistent with the requirements of the Listing agreements with the Stock Exchanges, the Company has institutionalized an elaborate system of control processes designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, reliability of financial controls and compliance with applicable laws and regulations. The Internal Auditors are mandated to carry out periodical audit and report on areas of non-compliances/ weaknesses. Corrective actions in case of reported deficiencies, if any, are taken actively to further strengthen the internal control systems. These reports are reviewed by the Audit Committee of the Board of Directors for follow-up action and instructions are issued for taking necessary measures.

#### **FUTURE OUTLOOK**

The Company's present business operations are preponderantly that of an investment Company, future of which largely depends upon financial and capital markets. Your Company has investments in financially sound companies and has immovable properties in the State of Maharashtra, U.P. etc. and Company will continue to earn good dividend and rent income. However, the income from the advances/lending business is steadily growing, contributing significant volume to the overall business of the Company. The Management is optimistic about the future outlook of the Company. Further, more promising areas of activity are being explored on a sustained basis. The Company will expand its activities, consistent with its status as a NBFC-SI.
